A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Authorization for this examiner's amendment was given in a telephone interview with Reza Mollaaghababa on November 9, 2007.

The application has been amended as follows:

In claim 43, line 2, "the chromophore" has been deleted and -- the stain -- has been inserted.

In claim 44, line 2, "the chromophore" has been deleted and -- the stain -- has been inserted.

The following is an examiner's statement of reasons for allowance: the prior art does not disclose or fairly suggest a method of whitening teeth using electromagnetic radiation with a wavelength that is absorbed by a stain on the tooth without the application of an externally applied (exogenous) oxidizing compound. Prior art does teach targeting a stain with a specific
